

Extra Yellow Apricot No: 2

Select, large (101-120 pcs/kg) golden yellow apricots from the orchards of Malatya. A favorite of luxury dried fruit aisles and of export.

Extra Yellow Apricot No: 2 is one of the large, fleshy, and visually superior fruit classes in the Malatya apricot sizing system. Each kilogram contains only 101 to 120 fruits. Fruits reaching this size are carefully picked from the sun-facing outer branches of the trees during harvest, then hand-picked by skilled workers after passing through sizing machines.

General And Logistics Details

Property / Field	Description
Origin Region & Basin	Malatya — Battalgazi & Akçadağ Select Orchards

- › Long shelf life through controlled dryness

Main Areas Of Use

- › Premium Dried Fruit and Packaging
- › International Export
- › Gourmet & Gift Food

The calibre (pcs/kg) and nutritional values in the table are based on Malatya apricot standards, industry practice and supply chain experience; exact values are confirmed by lot analysis. For serious wholesale purchase enquiries we consider your sample request; the sample fee charged is calculated over the retail reference unit price, and the courier/freight cost belongs to the buyer.
