

Apricot Kernel Peeling Powder

A natural exfoliant ground to micro level and free of microplastics, for cosmetic soap and face and body scrub creams.

Cosmetic Apricot Kernel Peeling Powder (Apricot Seed Powder / Botanical Scrub Exfoliant) is a cosmetic raw material produced by micronizing selected, clean apricot kernel shells in ultra-fine mills into rounded granules that will not irritate the skin or create micro-scratches on contact with human skin.

- › Foot & Hand Care Masks

The mesh/micron ranges in the table are based on industry practice and supply experience; the calibres available may vary with stock. For serious wholesale purchase enquiries we consider your sample request; the sample fee charged is calculated over the retail reference unit price, and the courier/freight cost belongs to the buyer.
